

Script IT Solutions is a leading Bahraini technology provider of hardware, software and service solutions to business and government clients in Bahrain and Saudi Arabia. Script is focused on helping organizations move technology goals forward in the areas of office productivity, Web technologies, mobility, network and security, data center and virtualization, data protection and cloud, and online e-Market.

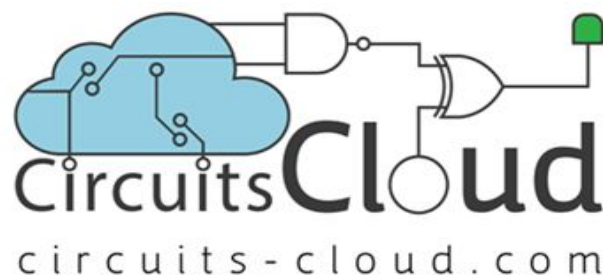

Founded 2006, headquartered in Bahrain. Has wide range of tailor- made products and services in Bahrain and GCC region . Script IT Solutions is a private limited company, consisting of creative and multi-talented web designers and web developers.

The Company is registered in the Kingdom of Bahrain, led by Bahraini professionals with significant domain expertise . The main mission of Invent Script IT Solutions is to deliver solutions with “Invented Ideas”, solutions that are non-conventional, creative, competitive, and above all, meet our clients’ needs and expectations.

## Cloud Services

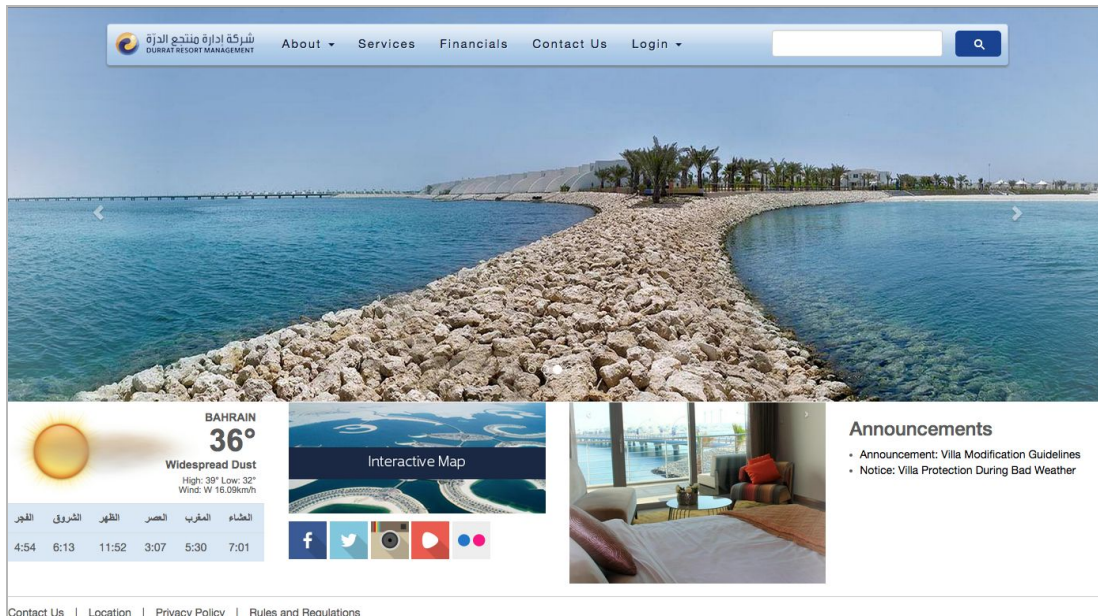

Infocamp is a center of excellence for Software products and services. We provide ERP software products which can be customized to Client specific requirements on top of global standard practices, which are available as standard functions and features in our ERP Software. At infocamp, we provide Technical and applications consultancy services. With our team of experts we conduct Business Process review before undertaking any ERP software implementation. Thus ensuring a success rate in Implementing our Software solutions.

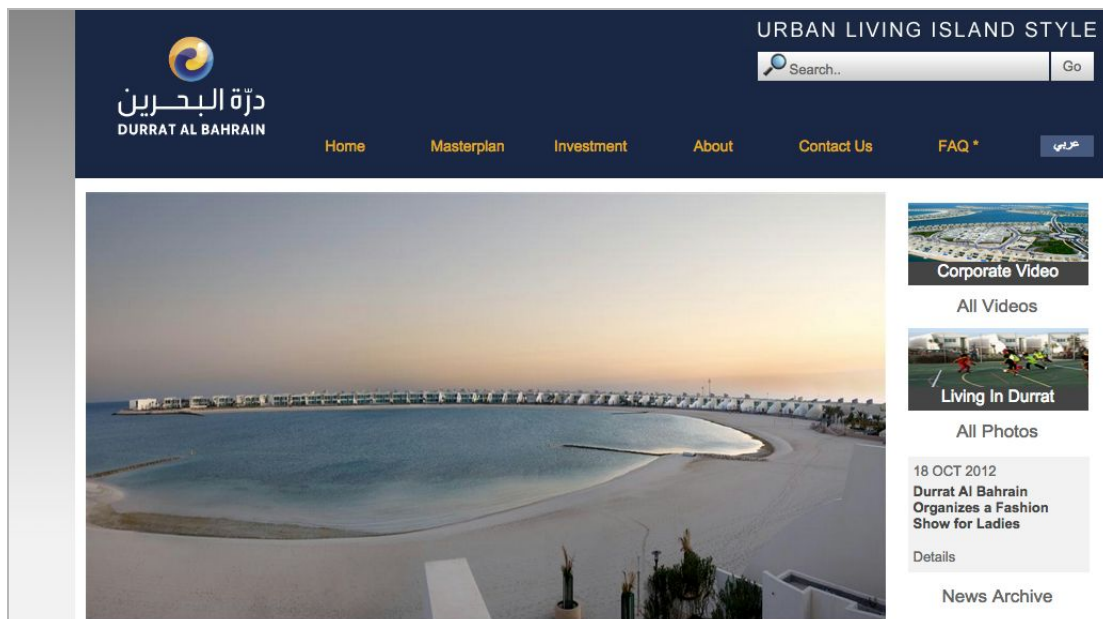

Circuits Cloud is provides online web site, in-browser tools for schematic capture and circuit simulation. These tools allow students, hobbyists, and professional engineers to design and analyze digital systems before ever building a prototype. Online schematic capture lets users easily share and discuss their designs, while online circuit simulation allows for quick design iteration and accelerated learning about logical circuit.
